Cumbres & Toltec Scenic Railroad

*Historic Preservation
Colorado & New Mexico*

The Cumbres & Toltec Scenic Railroad entailed providing a visionary Master Plan analyzing the historical and cultural landscape and archaeological and engineering conditions in a Master Plan/Facility Audit format. The Master Plan examined the existing resource's significance, the historic preservation opportunities, the condition of the resources, the controlled maintenance necessary for the stabilization and repair requirements and the capital construction requirements in the future. It also examined future strategies for marketing and funding of the Railroad's improvements.
