## **Potts Residence** *Cape Cod, Massachusetts*

**Potts Residence**, located in Wareham, Massachusetts, and set directly on Buzzard's Bay, Cape Cod, posed a unique design challenge for the architectural firm. The client's interest in the clean lines of the International style defined the design.

The design provided opportunities to carve out sections and cantilevered decks, while maintaining the cube's integrity. The glass wall, not only offered fantastic views of the Bay, but also provided a passive solar energy opportunity. Fine wood planes cut by large areas of glass, and planes of cantilevers, were featured on the inside and outside of the house. The open plan of the Residence created a natural ambiance, reflecting the beauty of the outside in an inside environment.
